Welcome

Over the last number of years, Ireland has enjoyed a historically low interest rate environment, which is great news for tracker mortgage holders – but is not so good for deposit savers.

Currently money being held on deposit (e.g. in bank deposit accounts) is not earning much interest. The question you should ask yourself is whether you want your money to work harder?

Zurich's Saving and Investment plans are alternatives worth looking at. They give you access to your money at any time and you have a choice as to where your money is invested (and how much risk you want to take).

[Over the next few pages we will introduce you to some people who have taken steps to plan ahead. Through their stories, we hope you will see the benefits of taking action and be encouraged to do something for your savings today.](#)

A close-up photograph of a man with dark hair and a beard, wearing a light blue button-down shirt. He is smiling warmly at a newborn baby he is holding. The baby is wearing a white onesie and is looking towards the left. The background is softly blurred.

can access
my money if
I need to.”

“ It's time for me to focus on the things that really matter in life.”

MEET SEÁN

Seán, 42 and his partner Kathryn are celebrating the arrival of child number three, their beautiful baby daughter Sinéad. “I love being a parent,” says Seán, “it totally changes your perspective on life.”

With additional priorities to consider, Seán has decided to look again at his savings plan. He recently inherited some money from his grandfather and wants to use it sensibly.

Seán says, “Some of it will pay for a long overdue family holiday in the summer. And we’re planning to invest the rest to build up a bigger pot for our family’s future. It’s money we were never counting on so our goal is to use it for something useful, like our kids’ education.”

Seán is happy to put this money away as a lump sum for ten to fifteen years. So he has chosen the Investment Bond with Zurich as it gives him control over how his savings are invested. And he has the peace of mind that he can access his money at any time.

Why did Seán choose an Investment Bond with Zurich?

- It’s a long-term investment option for his lump sum.
- It’s a great place to invest, with potential to grow his money.
- He can change the level of investment risk if circumstances change.

MEET CLAIRE

Claire is one year away from a significant birthday. "Next year I'll be 50 and that undeniable fact has lit a fire under me." That's why Claire recently met with a Financial Broker and put a plan together to secure her financial future.

A big part of that plan involves spending more time in the cottage she bought with her husband in Mayo. "I spend a lot of time out of the country on business and I'm beginning to miss home more and more," says Claire. "Mayo is where I grew up and it's where I want to end up."

Over the years Claire has worked hard to build up a savings pot but now she intends to get her savings working harder for her. Claire recently started saving in the Regular Savings Plan. "By investing my money, it has the potential to grow and because I can choose the level of risk I am comfortable with, I don't have to take any unnecessary risks."

Why did Claire choose the Regular Savings Plan

- It gives her savings more potential to grow than her bank account.
- She can match the level of investment risk to suit her.
- She can save from €75 per month.

Warning: The value of your investment may go down as well as up.

Warning: If you invest in this product you may lose some or all of the money you invest.

Investment solutions made easy

Zurich's Saving and Investment plans are some of the many options Zurich has available for investors. Once you have had time to consider your options, you should speak to a Financial Broker, advisor or Zurich.

The Investment Bond

- You can check the value of your investment bond any time by logging on to Zurich's online Client Centre.

The Regular Savings Plan

Watch your savings grow over time by putting an amount away regularly in an Regular Savings Plan. Your savings are invested in a range of investment funds depending on your risk profile.

Choose if:

- You want to save regularly for at least five years.
- You want the potential to earn a good return on your savings.
- You want the flexibility of being able to access your savings if you need to, with options available that give you access to your money without any penalties

The Benefits:

- You can save from as little as €75 per month.
- Option to vary the regular payments if required and to make a once-off lump-sum injection.
- You can tailor the plan to your needs with our wide range of investment funds.
- We have access to an extensive range of investment funds with varied risk profiles.
- You can check the value of your savings plan any time by logging in to Zurich's online Client Centre.

Your Risk Profile

Your savings and investments will be invested with a view to growing your money. How that money is invested depends on how much investment risk you are prepared to accept. Everyone's attitude to risk is different.

Choosing your own investment strategy will involve deciding on the

level of return you are looking for and balancing it against the level of risk you are comfortable with. That's why Zurich offers a range of investment solutions with different levels of risk.

If you would like to work out your attitude towards investment risk, check out our Risk Profiler tool at zurich.ie

There is a key Information Document (KID) available on this product. This document is a good source of further information and can be found at www.zurich.ie/broker-centre/key-info-docs/

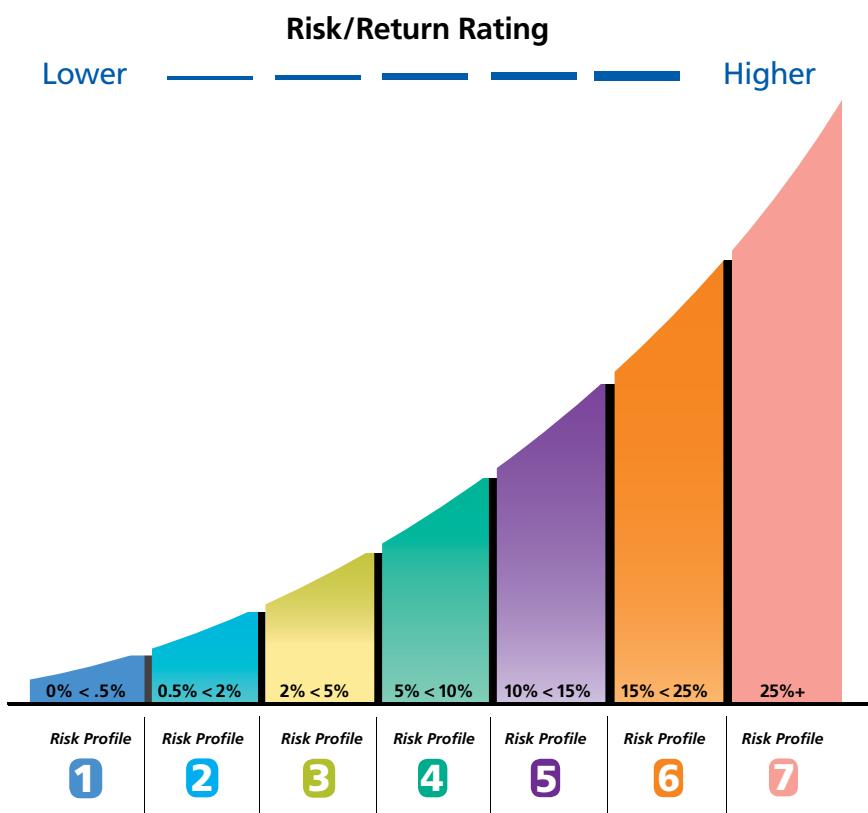

Warning: If you invest in these products you may lose some or all of the money you invest.

Investment risk & return

No one wants to take any unnecessary risks with their investment. However, there is a trade-off between risk and return. The lower the level of risk that you are prepared to take, the lower the potential for any investment gains/losses. Likewise, the higher the level of risk assumed, the higher the potential for investment gains, but also the potential for higher investment losses.

And so we've categorised our range of investment funds using a 1 - 7 scale. Our ratings are based on a scale that looks at a fund's volatility over a 5 year period, 1 being the lowest risk (lowest volatility) and 7 being the highest risk (highest volatility).

Zurich's risk scale

D Your Investment Options (continued)

Information about AutoInvest

AutoInvest allows you to invest your Single Contribution gradually into your chosen funds over a six or twelve month period. This means that you can spread the timing of your initial investment, and avoid the risk of investing all of your money at a particular time e.g. just before a market downturn.

If you select AutoInvest then your Single Contribution is invested initially in the Cash Fund.

AutoInvest will start one month after the Start Date of your policy as shown on your Policy Certificate.

On the date AutoInvest starts and each month thereafter, a proportion of your holding in the Cash Fund will be switched into your chosen funds, which you have specified above. In this way, your investment will be gradually switched into your chosen funds. You will be fully invested in your chosen funds 6 or 12 months after AutoInvest starts. These switches will happen automatically and we will not write to you to inform you when each switch has been processed. When all of the switches have been completed, we will write to you to confirm that AutoInvest has completed for your policy.

You can instruct us to cease AutoInvest on your policy at any time. Further automatic fund switches will not take place and any part of your investment still in the Cash Fund will remain there. If you request another switch outside of AutoInvest then AutoInvest also ceases to apply and further automatic fund switches will not take place.
