The Protected 80 Fund (the "Fund") is an actively managed fund which invests in a combination of the Dynamic Fund and a Cash Fund. The Fund has a Protected Price equal to 80% of its highest ever unit price. The protection to the Fund from falling below this Protected Price is provided by Barclays Bank plc* and not by Zurich Life. The allocation to the Dynamic Fund varies between a maximum of 70%** and a minimum of 0% depending on investment conditions and how close the Fund's price is to its Protected Price. The Fund will reduce its allocation to the Dynamic Fund when the Dynamic Fund unit price is falling, protecting the Fund from further falls. It will increase its allocation when the Dynamic Fund unit price is rising, allowing the Fund to benefit from future rises. As this fund invests some of its assets outside the eurozone, a currency risk arises for a euro investor.

The Fund is managed from the point of view of a eurozone investor by Zurich Life / Barclays Bank plc†.

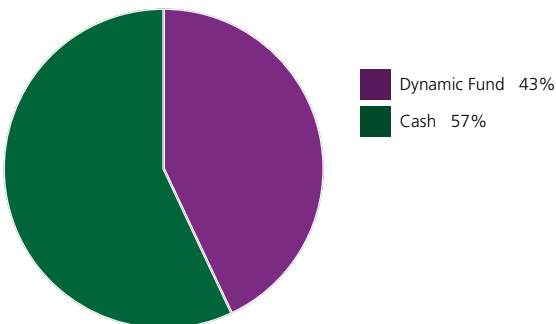

* Zurich Life reserves the right to replace Barclays Bank plc with another institution at any stage.

** 70% is the target maximum exposure to the Dynamic Fund. It is possible for the Fund to have a higher exposure to the Dynamic Fund at certain times.

† The underlying Dynamic and Cash Funds are managed from the point of view of a eurozone investor by Zurich Life. Barclays Bank plc calculates the allocation to the Dynamic Fund on a daily basis.
