

Dimensional's Portfolio Management and Trading desks are located across the US, Europe, and Asia Pacific, enabling us to cover global markets and manage strategies on a continual basis. Our global investment team applies the same philosophy, process, and systems across offices and regions.

RESEARCH-BASED SOLUTIONS

Dimensional has forged deep working relationships with leading financial economists—including Eugene Fama, Kenneth French, and Robert Merton—who work closely with our Portfolio Management, Trading, and Research teams, in addition to serving on our Investment Policy Committee. The opportunity for vigorous exchange between our internal researchers and these lauded academics has allowed us to bring the ideas of financial science to life for investors.

A strong belief in markets frees us to think and act differently about investing. The longevity of our client relationships—many dating back decades—demonstrates our commitment to client service and the stability of our organisation. By evolving with advances in financial science, Dimensional has delivered long-term results for investors.
