Prisma Multi-Asset Funds

Celebrating five years of positive performance

When Zurich launched the Prisma Multi-asset fund range in 2013, the goal was to simplify a complex investment process and enable customers to make informed decisions as to where to invest their money. Five years later, there are close to 50,000 Irish people investing over €2.5 billion across the five funds - firmly establishing the Prisma range amongst Ireland's most popular investment funds. And what's more, all of the Prisma Funds have delivered a positive return in each and every year since their launch.

The fund returns shown are net of the AMC deducted by Zurich Life in our unit prices. The fund returns are based on an investment in the funds and do not represent the returns achieved by individual policies linked to the funds. These fund returns may be before the full AMC is applied to a policy. The actual returns on policies linked to the specified fund will be lower because of the effects of charges and in some cases a higher management charge.

Prisma Funds – over €2.5 billion invested

The Prisma Funds have proven to be extremely popular with customers and financial brokers with over €2.5 billion invested across the five funds. Available across pensions, regular savings and lump sum investments, customers have benefitted from strong investment performance, great active management and low cost pricing, all backed by the strength and security of the Zurich Group.
