Fund Description

How Zurich calculate risk ratings has changed; for details see communication.

Indicative equity exposure: 100% of the value of the fund

The Indexed Global Equity Fund (BlackRock) is a unit-linked fund that gives you the opportunity to participate in the performance of companies in the developed world. The fund seeks to provide a total return, taking into account both capital and income returns. The fund currently invests in the iShares Developed World Index Fund managed by BlackRock. The iShares Fund is passively managed and aims to track an index, but will not track it exactly. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor.
