Indicative equity exposure: 100% of the value of the fund

The Indexed Global Equity Fund (BlackRock) is a unit-linked fund that gives you the opportunity to participate in the performance of companies in the developed world. The fund currently invests in the iShares Developed World Index Fund managed by BlackRock. The iShares Fund is passively managed and aims to track an index, but may not track it exactly. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor.
