

Why choose Zurich for Mortgage Protection?

Our Mortgage Protection products lead the way by offering the most competitive pricing available in the Irish market¹. When you consider that we

regularly offer discounts of up to 20% off our quoted price², then it certainly makes a compelling price argument for your customers.

Bonkers Award for Best Mortgage Insurance4

Waiver of Premium Benefit is free with our Mortgage Protection

Your customer's most important asset is their family home. Mortgage Protection should ensure the remaining mortgage is paid off in the event of their death but very often a protracted illness precedes death which could prevent your customer from earning an income. This benefit ensures that your customer's premiums are paid in the event of them being unable to work due to illness or injury. And because we believe its essential protection for customers, it's available for free!

One of the most important safety features available on our product – so missing a premium doesn't mean that cover will end. To reinstate a policy, unpaid premiums can be repaid within three months of the date on which the first unpaid premium was due. The policy can be reinstated even if a claim has arisen, in which case, valid claims may be paid. The policy cannot be reinstated if we receive a written request from the policyholder to cancel the policy.

Continuation Option and Guaranteed Insurability Option

Our Rolling 'Protection Continuation Option' allows your customers to extend the duration of their cover or convert their policy into a term protection policy at any stage, without requiring evidence of health. The 'Guaranteed Insurability Option' enables customers to increase cover on certain life events (such as marriage or the birth of a child) without providing additional evidence of health.
