Putting Financial Brokers Centre Stage

How to add your logo to the Client Dashboard

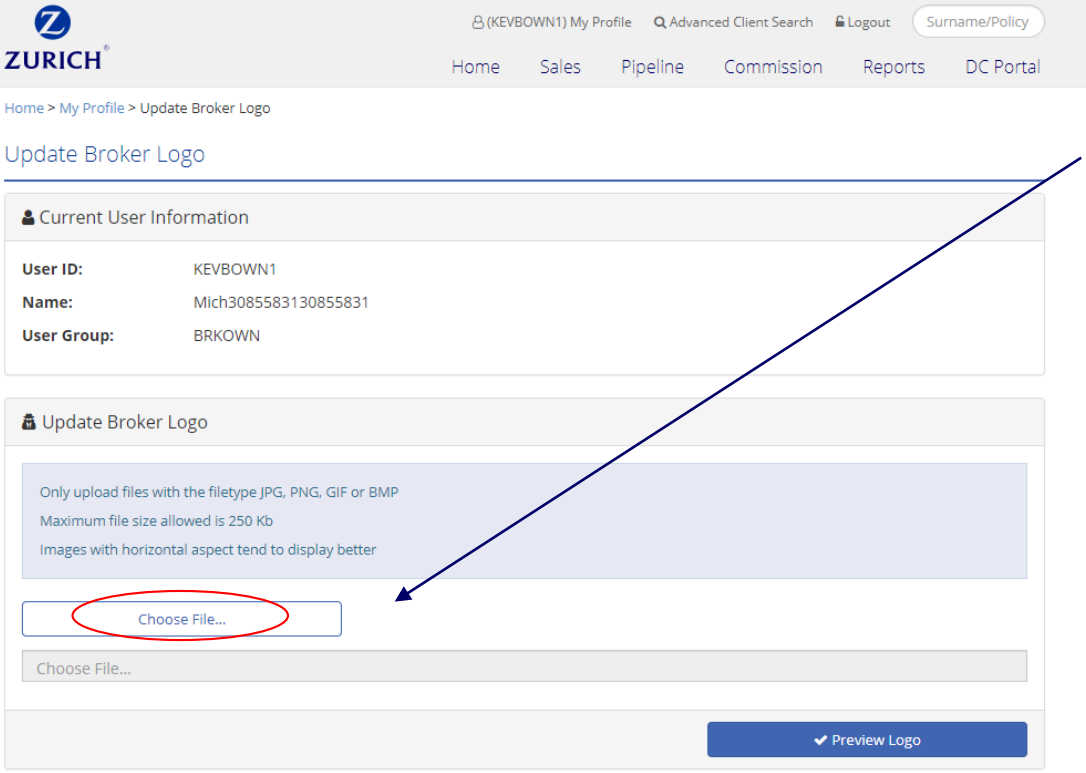

Confidential \ Non Personal Data

First click into your profile

Next click “Update Broker Logo”

Next choose your logo and click "Preview Logo"

- Be mindful that **landscape logos work best**. Please see the next page for important information on this.
- Max file size that can be uploaded is 250kb
- And you can only upload JPG,PNG,GIF or BMP files

ZURICH

Portrait Vs **Landscape**

Below you will see **two versions of the same logo**.
As our website layout favors landscape logos, the portrait version on the left has been shrunk to fit our system requirements.
However the landscape version on the right fits well and is much stronger.
Therefore we would strongly advise that you upload your logo in format this is roughly 2:1, meaning that the width is twice the height (which would be a landscape orientation)

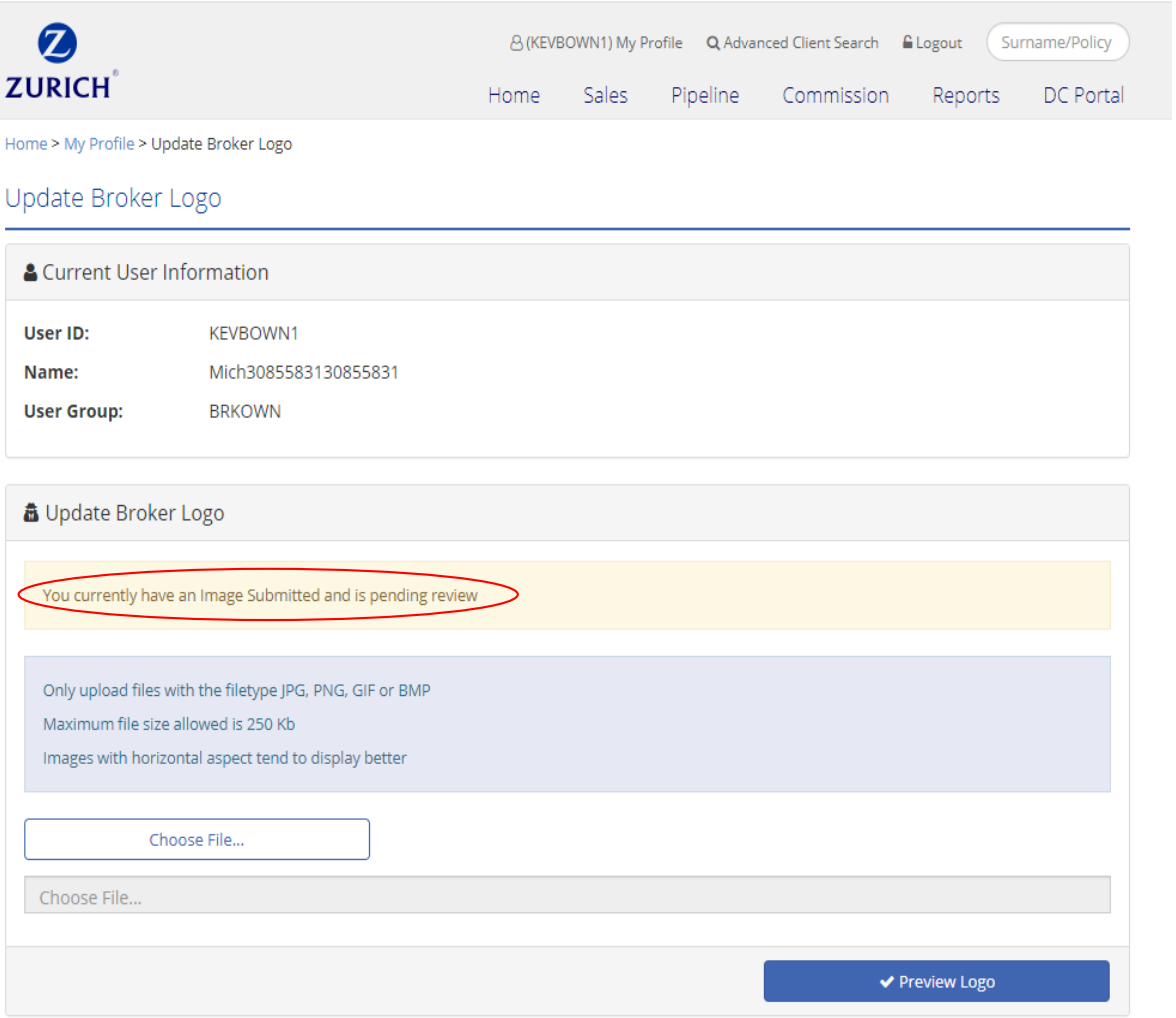

Once you're happy with your logo, click "Submit logo for Verification".

If you are unhappy with the preview, click "choose file" again to try another image.

Your logo has now been submitted to Zurich and is pending a quick marketing review.

Once reviewed, your logo will be visible on all of your client dashboards.

If you have any questions or queries, please do not hesitate to contact your broker consultant or a member of the marketing team.

Thank you
