Fund Description

Prisma Low is an actively managed fund which aims to achieve returns consistent with those available from investing across a diversified range of global asset classes - equities, short term bonds (government and corporate), medium term bonds (government and corporate) and cash. The strategic and tactical asset allocation strategies employed by the fund managers aim to deliver returns above prevailing Euro cash rates over time. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. As the fund is managed from the point of view of a euro investor any currency hedging that may be conducted will be into euros. This fund is managed by Zurich Life.
