

Income Protection - Occupational Guide

INTRODUCTION

This guide is designed to help you correctly classify your customers occupation and to ensure we can process your business as quickly and efficiently as possible.

All of the classifications in this list are Guidelines. The final occupation class assigned to a specific insured is subject to underwriting review and approval.

The proposed insured must work a minimum of 21 hours per week at the primary occupation.

We will cover the salary from an individual's main occupation only and will not offer Income Protection to any part time occupations.

In this guide we have listed job titles alphabetically and have made some assumptions regarding the activities that will be involved in each job. Therefore, a final assessment of the clients occupation will take place once all relevant information has been submitted to us as part of the application.

If you require any assistance regarding an occupational classification or any other pre-application queries please contact the **Underwriting Helpline on 01799 2825** or **email underwritingsupport@zurich.ie**
