

Early intervention and Back-to-Work services

When you have Income Protection with Zurich and you get ill or injured, let us know as soon as you can. You may immediately be able to benefit from our Early Intervention service which is provided by our partner Health Claims Bureau (HCB Group).

If you notify us of a potential claim, we will assess whether our back-to-work services can support your wellbeing. These services are particularly effective when the underlying cause is due to mental health and musculo-skeletal conditions, which together make up over 50% of our claims*.

And even when you're back at work, Zurich can keep supporting you. With Zurich's proportionate benefit we can top-up some of your salary if you are unable to return full time and you're not earning as much as before.

Zurich's Early Intervention services are provided through HCB Group, experts in Early Intervention and Employee Health Management with a track record of 30 years of helping people get back on their feet.
