The Asia Pacific Equity Fund is an actively managed fund which aims to achieve growth through capital gains and income from a well diversified portfolio of Asia Pacific equities and equity-based financial instruments. For tactical reasons, the fund may hold cash or cash equivalents. The fund has the scope to invest in the full universe of the Asia Pacific region, excluding Japan. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. As the fund is managed from the point of view of a euro investor any currency hedging that may be conducted will be into euros. This fund is managed by Zurich Life.
