Fund Description

How Zurich calculate risk ratings has changed; for details see communication.

The Global Government Bond Fund (J.P. Morgan) is a unit-linked fund that gives you the opportunity to gain exposure to government bonds. The fund invests primarily in global government debt securities with at least 67% of assets invested in debt securities issued or guaranteed by governments globally, including agencies and local governments guaranteed by such governments. The Fund will not invest in convertible bonds, equities or other participation rights. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. This fund is managed by J.P. Morgan.
