Fund Description

The Prisma 2 Fund is an actively managed fund which aims to achieve growth through capital gains and income from investing across a diversified range of asset classes - global equities, bonds, property, commodities, cash and alternative assets. The strategic and tactical asset allocation strategies employed by the fund managers aim to generate long-term capital growth. The risk of the fund is measured relative to the risk of global equity markets and Prisma 2 has an expected volatility range of 5% to 17.5% of global equity volatility over the long term. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. As the fund is managed from the point of view of a euro investor any currency hedging that may be conducted will be into euros. This fund is managed by Zurich Life.
