The Indexed Australasia Property Fund is a unit-linked fund that gives you the opportunity to participate in the performance of some of Australasia's leading real estate companies. The fund currently invests in an iShares Exchange Traded Fund (ETF) managed by BlackRock. The iShares ETF is passively managed and aims to track an index, but will not track it exactly. Zurich Life reserves the right to replace this ETF with another fund at any stage. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. The unit-linked fund can have exposure to cash as part of the management of the fund.

It does not necessarily give an indication of the location of the properties held by the property companies e.g. Westfield Corporation is an Australian company and is part of the 'Australia' holding, however, it has properties in Australia and other countries.
