Fund Size	€94 million

Fund Description

Indicative equity exposure: 100% of the value of the fund

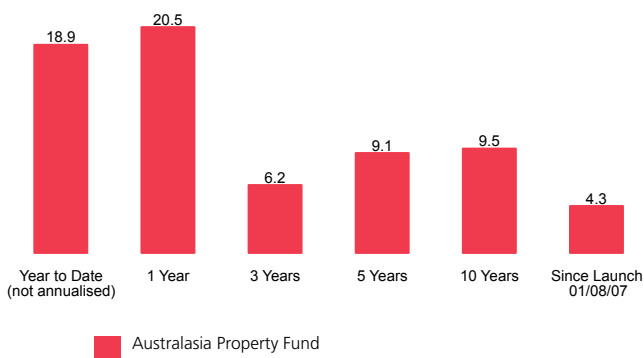

The Australasia Property Fund is a unit-linked fund that gives you the opportunity to participate in the performance of some of Australasia's leading real estate companies. The fund currently invests in an iShares ETF, which is managed by BlackRock. Zurich Life reserves the right to replace this ETF with another fund at any stage. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. This fund can have exposure to cash as part of the management of the fund.
