Fund Description

Indicative equity range: 75% - 100% of the value of the fund

The Dynamic Fund is an actively managed fund which aims to achieve growth through capital gains and income from a well-diversified global portfolio of quality equities and equity-based financial instruments. It may also include from time to time some bonds issued by governments, supranational bodies, other investment grade corporate and non-sovereign bonds and/or bond-based financial instruments. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. As the fund is managed from the point of view of a euro investor any currency hedging that may be conducted will be into euros. This fund is managed by Zurich Life.
