Risk Rating

The Fund has a risk rating of 5. Please see the Fund Guide for more details.

Fund Description

How Zurich calculate risk ratings has changed; for details see communication.

Indicative equity range: 80% - 100% of the value of the fund

The International Equity Fund is an actively managed fund which aims to achieve growth through capital gains and income from a portfolio of international equities and equity-based financial instruments. For tactical reasons, the fund may also invest in cash or international bonds issued by governments, supranational bodies, other investment grade corporate and non-sovereign bonds and/or bond-based financial instruments. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. As the fund is managed from the point of view of a euro investor any currency hedging that may be conducted will be into euros. This fund is managed by Zurich Life.
