SuperCAPP

An Update for 2015

For 37 years, the words used to describe SuperCAPP haven't changed - stable, secure and consistent.

In 2015, your SuperCAPP customers can be secure in the knowledge that:

- The fund has beaten inflation in every one of its 37 years.*
- SuperCAPP has always delivered consistent, positive returns.
- It continues to be a lower risk option for longer term investors.

In our update for 2015 we cover the impact that 2014's falling yield on 10-year Eurozone Government Bonds has had on the annual dividend and the positive impact that rising equity markets have had on special dividends.

To assist you in promoting the benefits of the SuperCAPP Fund to your clients we have produced a number of sales aids and technical guides.
