SuperCAPP - An Update for 2016

For 38 years, our customers have told us that being consistent matters. We act on that.

In 2016, your SuperCAPP customers can be secure in the knowledge that:

- The fund has comfortably beaten inflation over all investment periods in its 38 years*
- SuperCAPP has always delivered consistent, positive returns.
- It continues to be a lower risk option for longer term investors.

In our update for 2016 we cover information on our recently declared interim 2016 annual dividend and also examine the performance and potential returns that SuperCapp has delivered over the last 38 years.

To assist you in promoting the benefits of the SuperCAPP Fund to your clients we have produced a number of sales aids and technical guides:
