

New tools to help you help your customers

01 February 2017

## Enhance your website with our handy calculators & videos

We have a range of **Calculators, Tools & Videos** available for you to use on your website, to help your visitors understand their financial choices better. Availing of them is easy, just read onto see how.

Some of our codes have been updated recently, so if you are using one of our calculators already then you can grab the updated code from our Broker Calculator self-serving webpage.

Simply, see what we have to offer and click through to our site to grab the relevant code.

## A selection of Zurich's Calculators & Tools

Irish Pension Calculator

Budget Calculator

Life Cover Calculator

Life Quote Calculator

Pension Contribution Calculator

Inheritance Tax Calculator

Tax Relief Calculator

ARF or Annuity Tool

Click the tool you are interested in, copy the relevant code and follow the instruction at the bottom of this email.

## Why not use one of our Videos?

We have created these videos for our customers to help simplify the pensions and investments processes.

These videos provide a short succinct explanation of what some consider to be complicated financial decisions. Why not use these videos on your website help guide your prospective customers on their financial journey.

## How does a pension work

## How do funds work

## What happens after you retire

## How savings & investments works

Simply [click here](#) to go to our Tools, Calculators & Video page to copy your code.

### Other handy resources

#### Personal Budget Spreadsheet

#### Investing With Confidence

#### Our Fund Range

#### Pension FAQs

Okay, so you would like to use one of the **videos or calculators**, but not sure how to get them onto your website?

Well, you can **insert the code** into the text editor of your website's 'control management system' or simply **pass this email to your web developer to do it for you**.
