

Variable Rate Deposit Fund Series 2

(Closed to new business)

The Variable Rate Deposit Fund Series 2 is a cash fund which offers a high level of security and the opportunity to earn a competitive interest rate on your pension contribution.

Variable Rate Deposit Fund Series 2

The Variable Rate Deposit Fund Series 2 invests in a variable rate deposit account with **Credit Suisse International** from **30th November 2011** to **2nd December 2013**.

The interest rate will be set at the end of every February, May, August and November. The interest rate will, for each 3-month period, be 3-month Euribor + 0.5% per annum.*

The current 3-month Euribor rate is 1.57% per annum so the current interest rate would be 2.07% per annum payable quarterly.

Zurich Life's normal product charges apply, including early encashment charges on some products. The interest rate applied is before deduction of these charges.

* Euribor is short for Euro Interbank Offered Rate. The Euribor rates are based on the interest rates at which a panel of 57 European banks borrow funds from one another. The 3-month Euribor rate used to determine the interest rate of this fund is that applying at 10:00 am two business days before the last day of February, May, August and November.
