# **Fund Description**

The Dynamic Diversified Growth Fund (BlackRock) seeks to deliver long-term capital growth with a low tolerance for capital loss. The fund aims to outperform cash returns. To achieve this, the fund invests in the BlackRock Dynamic Diversified Growth Fund which is an actively managed fund with a transparent and well-diversified portfolio. It seeks to achieve performance from a diversified portfolio of global equities, government and non-government bonds, alternative assets, financial derivatives and cash to provide growth, diversification and protection strategies. The alternative assets may include commodities, hedge funds & volatility strategies, high yield bonds, investment grade corporate bonds, emerging market equities, asset backed securities, mortgage backed securities and distressed securities. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor. This fund is managed by BlackRock.
