

Australasia Property Fund

Fund Description

Indicative equity exposure: 100% of the value of the fund

The Eagle Star Australasia Property Fund is a unit-linked fund that gives you the opportunity to share in the performance of some of Australasia's leading real estate companies. The fund invests in the shares of the **FTSE EPRA/NAREIT Asia Dividend+ Index** via an Exchange Traded Fund (ETF). The FTSE EPRA/NAREIT Asia Dividend + Index covers property companies and Real Estate Investment Trusts (REITs) that pay a large percentage of their profits as income. A currency risk arises for a euro investor, as the underlying companies operate outside the eurozone.

Investment Aim

The fund objective is to provide investors with exposure to the Australasia real estate sector and to track the performance of the FTSE EPRA/NAREIT Asia Dividend + Index. The fund achieves this by investing in the iShares FTSE EPRA/NAREIT Asia Property Yield Fund. This is an Exchange Traded Fund managed by Barclays Global Investors. Eagle Star Investments reserves the right to replace this Exchange Traded Fund with another fund at any stage. The constituent stocks and their weights within the FTSE/EPRA NAREIT Asia Dividend + Index are constantly changing. Barclays Global Investors does not guarantee that the iShares FTSE EPRA/NAREIT Asia Property Yield Fund will always exactly mirror the index as there will be a time lag while changes in the index are being reflected.

Who should invest in the Fund?

The fund is available as part of the Matrix range for both pension and investment clients. This fund is designed to appeal to investors who seek a long-term return on capital invested and are willing to accept the risks inherent in the volatility of property related investments.

Note that real estate companies can trade at a discount or a premium to Net Asset Value. This can lead to large changes in the share price of the company without large changes in the value of the underlying properties owned by the company.
