

Dynamic Fund

Fund Description

Indicative equity range: 75% - 100% of the value of the fund

The Dynamic Fund is an aggressively managed fund with a high equity content that aims to achieve long-term capital growth and income through investment in a well-diversified global portfolio of quality equities and equity-based financial instruments. It may also include from time to time some bonds issued by governments, supranational bodies and other investment grade corporate and non-sovereign bonds and/or bond-based financial instruments. In terms of currency, the fund is managed from the point of view of a eurozone investor. As this fund invests some of its assets outside the eurozone, a currency risk arises for a euro investor. This fund is managed by Zurich Life.

Investment Aim

The aim of this fund is to offer investors competitive returns through participation in an aggressively managed fund. The investor can benefit from the performance of a well-diversified portfolio of investments (equities, bonds and cash), together with active management of the asset classes with reference to a clearly defined indicative equity range.

Who should invest in the Fund?

The fund is available as part of the Prisma range for both pension and investment clients. It will appeal to investors who are seeking competitive returns over the long term from a fund with a high equity content. The asset mix of the fund (equities, bonds and cash) and the specific stocks held are actively managed and constantly reviewed by Zurich Life.

Managed Fund Expertise

Zurich Life has a strong commitment to equity investment and we have proven expertise in this area. We are also an established leader in successful fixed interest investment. Our active management of equity and fixed income investments has added significant value to investors in the Dynamic Fund.

Zurich Life has a disciplined top-down investment process, the key inputs to which are the assessment of the economic and asset cycle. We believe that the macroeconomic environment is the key driver for investment market themes. We are business cycle investors, portfolios being constructed to take advantage of opportunities over all parts of the economic cycle. Portfolios may at any time show either a growth or a value bias depending on prevailing macroeconomic views.
