

Eurozone Equity Fund

Fund Description

Indicative equity range: 80% to 100% of the value of the fund.

The Eurozone Equity Fund is an actively managed equity fund which seeks to maximise growth through capital gains and income from a well-diversified portfolio of eurozone equities and equity-based financial instruments. The fund managers will manage the fund with the constraint of no individual stock holding representing more than 5% above its weighting in the FTSE Eurobloc Index and any individual stock's weighting capped at 10% of the total fund. In terms of currency the fund is managed from the point of view of a eurozone investor. This fund is managed by Zurich Life.

Investment Aim

The fund is managed against a benchmark of the FTSE Eurobloc Index. Zurich Life will seek to add value to the fund and aim to outperform the index through the fund managers' stock selection skills.

Who should invest in the Fund?

The fund is available as part of the Matrix range for both pension and investment clients. The Eurozone Equity Fund has been established to provide investors with a pure Eurozone equity investment. It can also be used in conjunction with other funds to allow investors to build their own diversified portfolio of investments.

Equity Expertise

Zurich Life has a strong commitment to equity investment and we have proven expertise in this area. We have established an innovative range of equity funds which provide investors with the opportunity to take advantage of our fund managers' stock selection skills by offering concentrated portfolios in key regions around the world, as well as more broadly based international and eurozone portfolios.

Zurich Life has a disciplined top-down investment process, the key inputs to which are the assessment of the economic and asset cycle. We believe that the macroeconomic environment is the key driver for investment market themes. We are business cycle investors, portfolios being constructed to take advantage of opportunities over all parts of the economic cycle.
